<b>Brief Project Description</b> (300 Characters)	Identify an appropriate alternative design for the existing roundabout to aid better traffic flows and make provision for non-motorised users and cyclists.
<b>Full Project Description</b>	<p>Rotherham Metropolitan Borough Council (RMBC) appointed AECOM to look at options through feasibility and preliminary design for the 5 arm Worrygoose Roundabout in Rotherham to reduce congestion, whilst making provision for non-motorised users (MNUs) and cyclists.</p> <p>The options investigated included:</p> <ul style="list-style-type: none"> <li>• signalling all arms of the roundabout</li> <li>• widening the left lane of Worrygoose Lane,</li> <li>• a segregated left lane on Worrygoose Lane,</li> <li>• a crossroads;</li> <li>• a 'hamburger' style roundabout and;</li> <li>• a 'hamburger' style roundabout with an additional lane on East Bawtry Road in both directions</li> </ul>
<b>Innovation</b>	We developed a proposal for an unusual 5-arm modified signalised hamburger roundabout to both ease congestion and better accommodate NMUs and cyclists.
