

MHA+ virtual learning offer feedback 2025/26

What were the three most positive points about the virtual learning modules on offer ?

Leant something new was very informative Decent length

The Various components of the NEC4 suites, their application were all explained in the course
Its necessary

There was a lot of detail - which was helpful but required a lot of note-taking.

Could complete at own pace easy to understand language easy to dip in and out of

Informative; Examples given Some interaction required

-Interactive activities -easy to follow audio and slides -very informative and useful links to more information

It has allowed me to gain further knowledge and up-skill my understanding in Contractual documentation.

ce section very good;

Useful links to addition resources

Easily Understandable Coherent Context provided in some cases

Raised confidence and awareness. Easy to follow.

Ability to complete at own place. Transcript makes note taking an easy process. Engaging graphical information

Ability to work through at own pace, taking notes without rushing and basic terminology all could understand..

- Well paced; Beginner-intermediate level of understanding, suited me well; Could go at my own pace, fit learning in my day whenever I wanted.

Provided all the information required as an introduction to the ECSC and providing just enough detail without going into the finer technicalities.

The course was structured in a very detailed and comprehensive manner. Access to additional sources was very useful and interactive. The additional learning

resources allowed me to do this at my own leisure when i was free. I could go back through slides to review again especially when the following slide brought so

Format and way content was broken down into digestible chunks

The course could be completed anytime, and resumed. References to the CDM clauses and cross referencing was useful and the examples are good.

I enjoyed watching the videos; I enjoyed the fact it was split into sections; It was very informative

Its was on point, very relevant to my work and very elaborate

Have gotten the philosophy of NEC4; have also gotten the knowledge on the appropriate contract; Have known the responsibilities of the key parties; Refresher to aid ongoing duties and understand. Provides key items and whys its there. To prevent injury to workers.

Awareness of the Carbon reduction legislation, summary of key points and challenges;
On demand, and able to learn at my own pace and come back to it around the day job!
