

NEC 4: ECC Stage 1 - COMMUNICATIONS, INCENTIVES, EARLY WARNINGS AND EARLY PROGRAMME

What were the three most positive points about the course?

Excellent delivery and discussion within the room; Relevant examples used

Great presentation style, very engaging and inter-active; Gave a good understanding of application in practice and examples of live schemes;

Client and contractor attendees gave a broad perspective of ECI in application

Very well delivered. Very good contribution by all attendees. I can apply this to my current role

Using actual projects for working examples; Group work; Sharing knowledge & experience

Communicative; Interactive; Clear

The training involved applying the learning points to live projects currently undertaken by two of the delegates;

The trainer was well spoken and did not appear to rush through the content;

It was a good way of meeting other individuals in my field of work

Group mix was varied with different positions and from both public and private enterprises which made group discussions open and productive.

Active participation was encouraged; Practical/relevant project were used as examples for review and application of concepts;

The course provided a good opportunity to discuss; Key contractual requirements during ECI; Review of previous and current MHA schemes

Very comprehensive course

Excellent

Relevance of content, opportunity to share experiences and talk through how X22 might be applied, very clear and engaging delivery.

Genuinely a really first-rate course
