

NEC 4: Introduction the Engineering Construction Contract

What were the three most positive points about the virtual learning module?

The test was the useful bit

- 1) Easy to follow and understand;
- 2) Focused on key crucial areas;
- 3) Good mix of questions on the test

Relevant content. Good presentation style. Able to save & restart.

Relevant. Clearly explained. Informative.

Clear Concise Easy to navigate

Refresher; deep knowledge of the contract; making you confident

I will be able to use it straight away. It is good to have access to transcripts.

Easy to follow; some of the visuals were very useful

1. An understanding of the changes from NEC 3.;
2. A better insight into working timescales.;
3. The structure of the test helped to consolidate the learning.

Appreciation of other contract types; Detailed explanation of CE's; Information relating to dispute resolution and insurances

Course Notes was a very good reference;

Case studies were very helpful; Feedback on the responses the test questions, such as related clauses to review, were very informative and useful

Good overview of NEC4; Covered all areas; Clearly explained

Good balance of content; Interactive; Sensibly split (for the most part)

very informative

Detailed, clear, well presented

You are able to do it in your own time

Descriptive; Well laid out; Easy to follow
