Upcoming MHA learning events for our members

NEC 3: TSC Service Manager Accreditation

The TSC Service Manager Accreditation is designed to equip delegates with the skills necessary to be able to fulfil the role of a Service Manager under the NEC3 Term Service Contract (TSC). The programme is part of unique suite of accreditations for those undertaking managerial roles within NEC3 projects and contracts. Under the TSC, the Employer is represented by the Service Manager.

There are three parts to the programme - completion of two online modules:

Introduction to the Term Service Contract (TSC)- available on the MHA Ims. This should be completed first.

Managing the Term Service Contract (TSC) Contractor's plan and programme – available on the nec portal – we have negotiated a special rate for this module – you will be invoiced direct for this element of the accreditation

The face – face training will be delivered over four days – two days over two weeks. You must attend all four days. **23/24 October week 1;30/31 October week 2:** Held at NSPCC National Training Centre, 3 Gilmour Close, Beaumont Leys, Leicestershire, LE4 1EZ

NEC4 ECC: stage two - subcontracting, compensation events and payment

This is a one day workshop covering the practicalities of applying some of the collaborative management processes that are an essential part of the ECC. It is commissioned from Thomas Telford, providers of technical training for ICE members and those in the wider construction sector. The NEC Contracts have been updated and the NEC4 Suite of Contracts builds upon the success of the NEC3. The proven and unique processes for collaboration, fair dealing and good project management that are inherent in the NEC philosophy remain in this evolved edition.

Delegates will be provided with invaluable practical guidance on managing Stage 2 of the NEC4 ECC Option C contract within the Midlands Highway Alliance Framework - with a specific focus on subcontracting, compensation events and payment.

15 January 2019: Held at NSPCC National Training Centre, 3 Gilmour Close, Beaumont Leys, Leicestershire, LE4 1EZ

NEC: be an effective Project Sponsor

This was a bespoke learning event commissioned in 2017 - that has been evaluated and further developed with ICE, to support MHA members who are undertaking the project sponsor role. The updated content takes account of Project 13 Highways England Project Control Framework and NEC4.

The event will again be delivered by David Harrison, who provides specialist services to the construction industry. David has designed and delivered a range of learning on behalf of Thomas Telford (ICE), including their project management, partnering, alliancing and collaborative working

The learning content will emphasise specific stages

- Inception;
- Feasibility;
- strategy
- two stage delivery

18 October 2018: Held at Kents Hill Park Training & Conference Centre, Swallow House, Timbold Drive, Kents Hill Park, Milton Keynes, MK7 6BZ

Highway Design and Detailing using the DMRB

An intensive two day training course that provides the technical background, hands on experience and considered opinion necessary to enable you to produce effective engineering solutions on your projects. You will be provided with a comprehensive workbook / referencing document

27/28 November 2018: Held at NSPCC National Training Centre, 3 Gilmour Close, Beaumont Leys, Leicestershire, LE4 1EZ
