

Adrian Coy

ICE Vice President and Chair
State of the Nation Steering Group

STATE OF THE NATION 2016:

Devolution

Importance of infrastructure

The screenshot shows the Broxtowe Borough Council website. At the top right is the council's logo and name. Below it is a search bar with the text "Enter a Keyword" and a "Search" button. A navigation menu includes "For Business", "About the Council", and "News & Events". The main content area features a breadcrumb trail: "Home > For You > Planning & Building > Planning Policy > Toton consultation on Strategic Location for growth in the vicinity of the proposed HS2 station". The title of the page is "Toton consultation on Strategic Location for growth in the vicinity of the proposed HS2 station". The text below reads: "Broxtowe undertook a consultation (between 23rd November - 1st December 2015) on the appropriate mix, amount and location of new development in this location with regard to the minimum development requirements specified in the Core Strategy. This consultation is now closed." At the bottom of the text, it says: "The responses of the consultation were summarised and included in a report taken to Cabinet on 15th".

STATE OF THE NATION 2016:

Devolution

Devolution

Effectiveness

Efficiency

Clarity

**Devolution over
infrastructure is
desirable for three
key reasons:**

1

Local bodies often have a superior understanding of networks in their areas, enabling integrated approaches

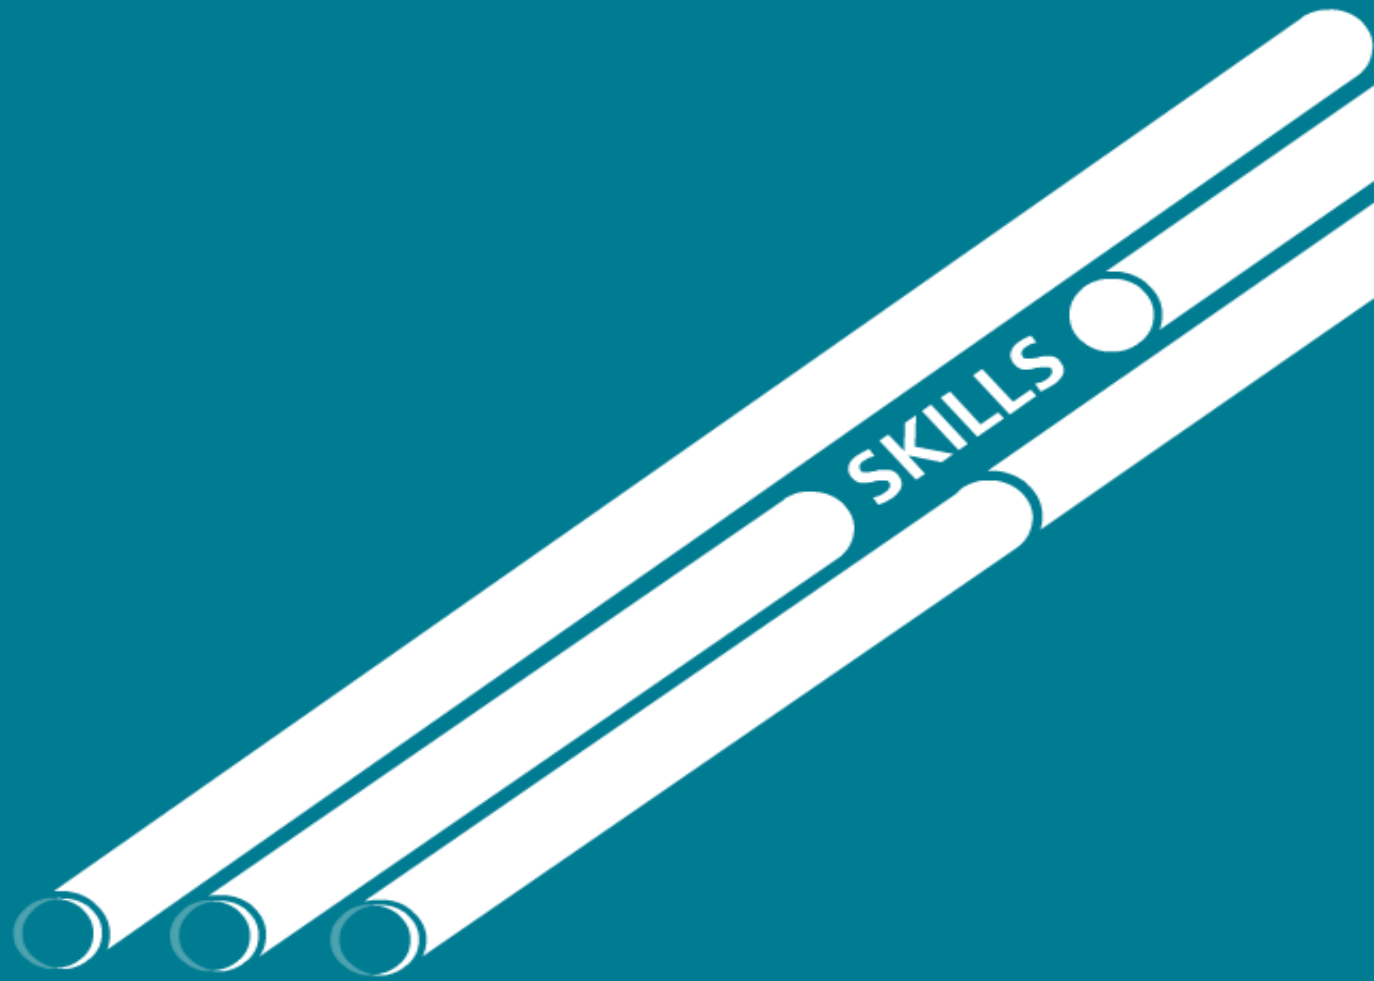

2

**It can bring people
closer to the important
decisions that impact
their everyday lives**

3

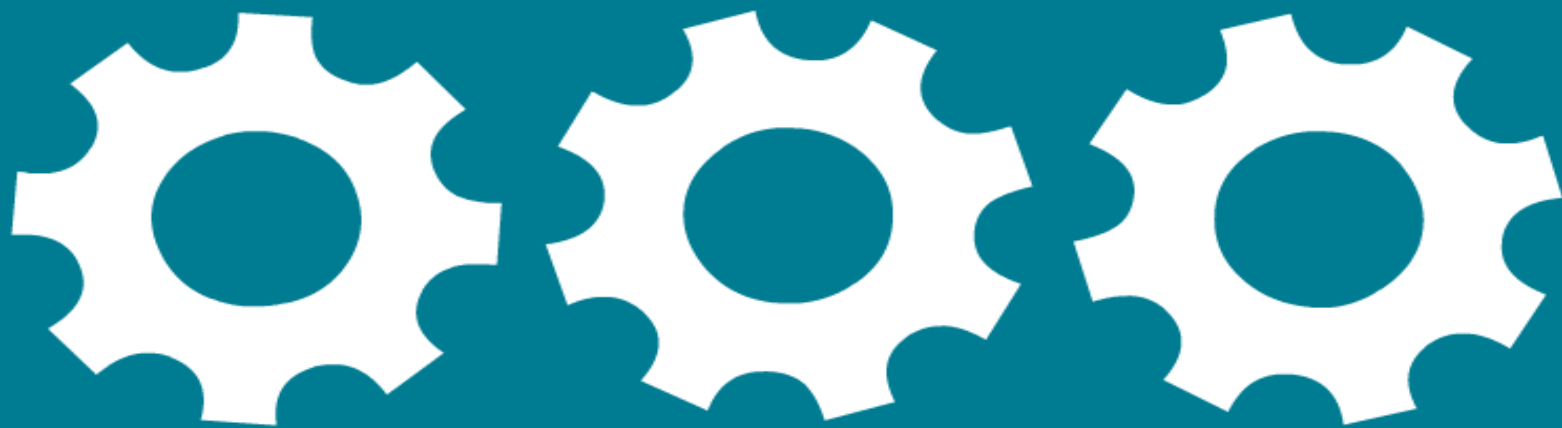

**It works.
On a cross-infrastructure
sector basis it has had
positive impacts**

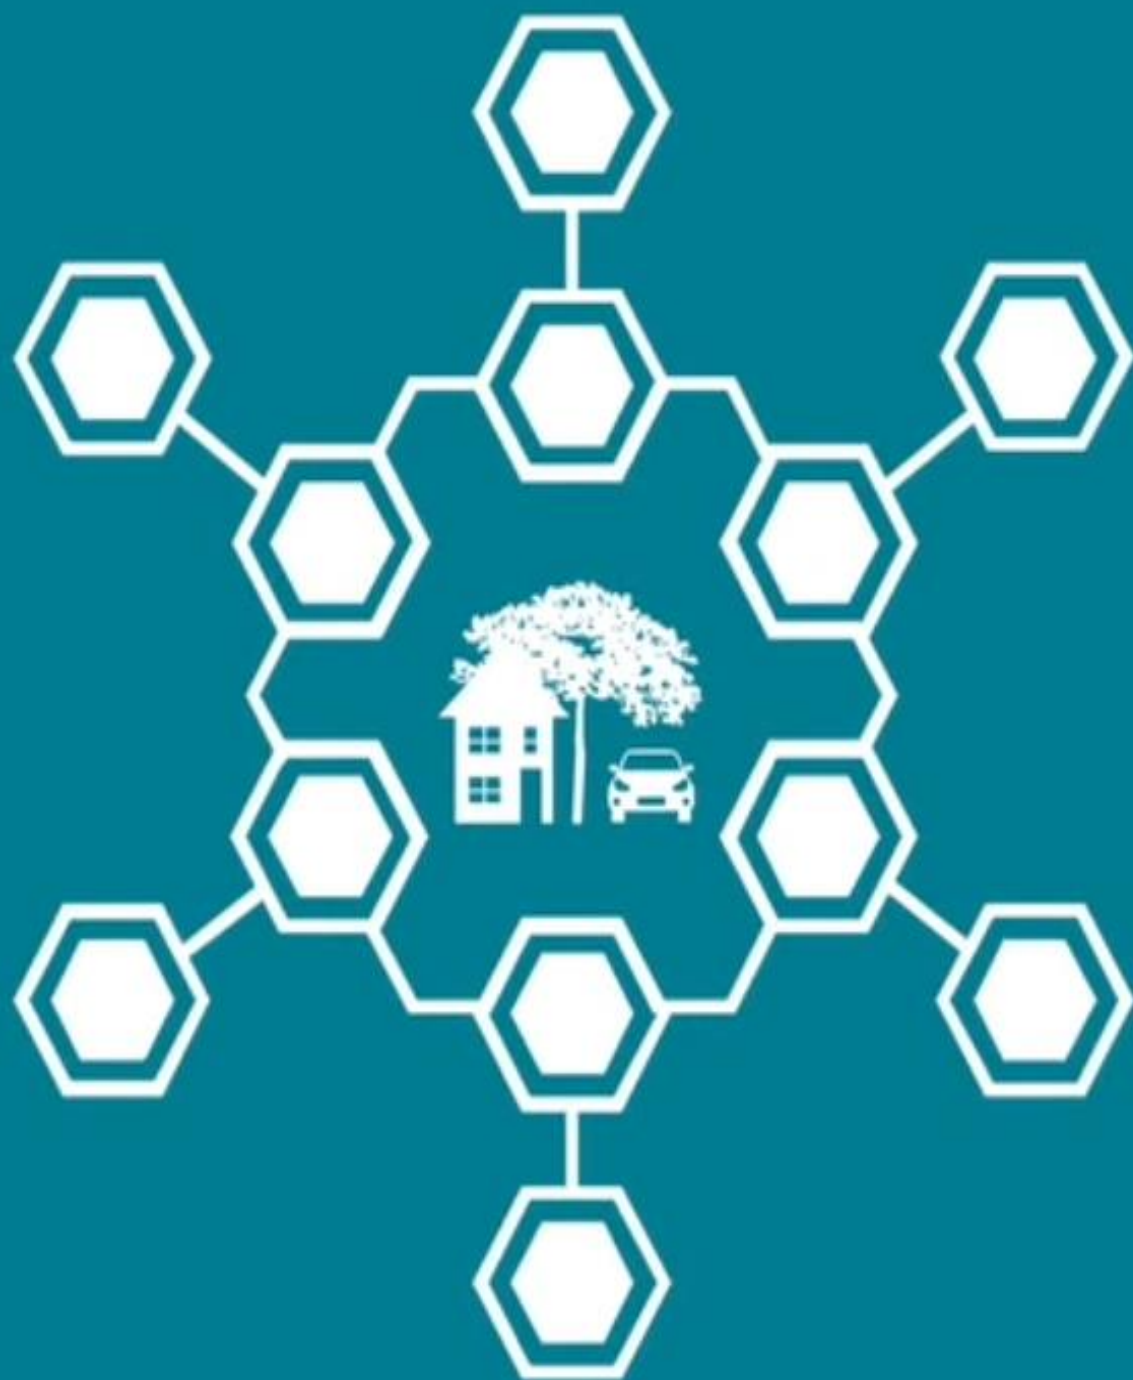

Digital

With our unique cross-sectoral skills, civil engineers can deliver devolution to make real changes to quality of life
