

Professional Services Partnership 2

Partnership management

- A **Strategic Board** with representatives from across the partnership provides direction and sets targets while an **Operational Board** deals with the delivery of workload, integration, performance and innovation.

Strategic Board

Meets quarterly – chaired by David Bartram, Derby City Council

Operational Board

Meets every six to eight weeks – chaired by Peter Barclay, MHA Manager

► Improvement groups

➤ **Improvement groups** have been set up to develop specific aspects of the partnership with AECOM/Waterman. These groups are task focused and come together as required.

Around four to five local authority representatives are invited to join each improvement group, dependent on their specific interest and expertise. These invitations are made at the request of the chair of the group.

Examples of work carried out by the improvement groups includes the harmonised specifications, Building Information Modelling (BIM) and the production of the Commission Manual, which sets

out the standard procedures for the PSP2 contract. Copies of this are available on the secure section of the MHA website at www.mhaweb.org.uk/member or from Peter Barclay, peter.barclay@leics.gov.uk

Benefits

There are many advantages that can be gained by MHA authorities from using PSP2 - the main benefits being:

1. A 'ready made' framework contract which reduces costs by cutting out the need to go out to the market for quotes or tender to procure these services.
 2. Direct access to expertise and specialist services.
 3. Economic rates (on services, seconded staff, etc.)
 4. Value for money through collaborative working.
 5. BS11000 Relationship Management Plan with bespoke authority partnership plans to efficiently meet individual client needs.
 6. Project collaboration through 'SharePoint', a secure web-enabled collaboration environment with key benefits including quick retrieval of the most up-to-date documents, improved team communication and coordination, powerful search tools and the ability to store data in one place. System access is via the MHA website, see details on 'How to procure AECOM/Waterman' opposite.

The full range of services available is shown overleaf.

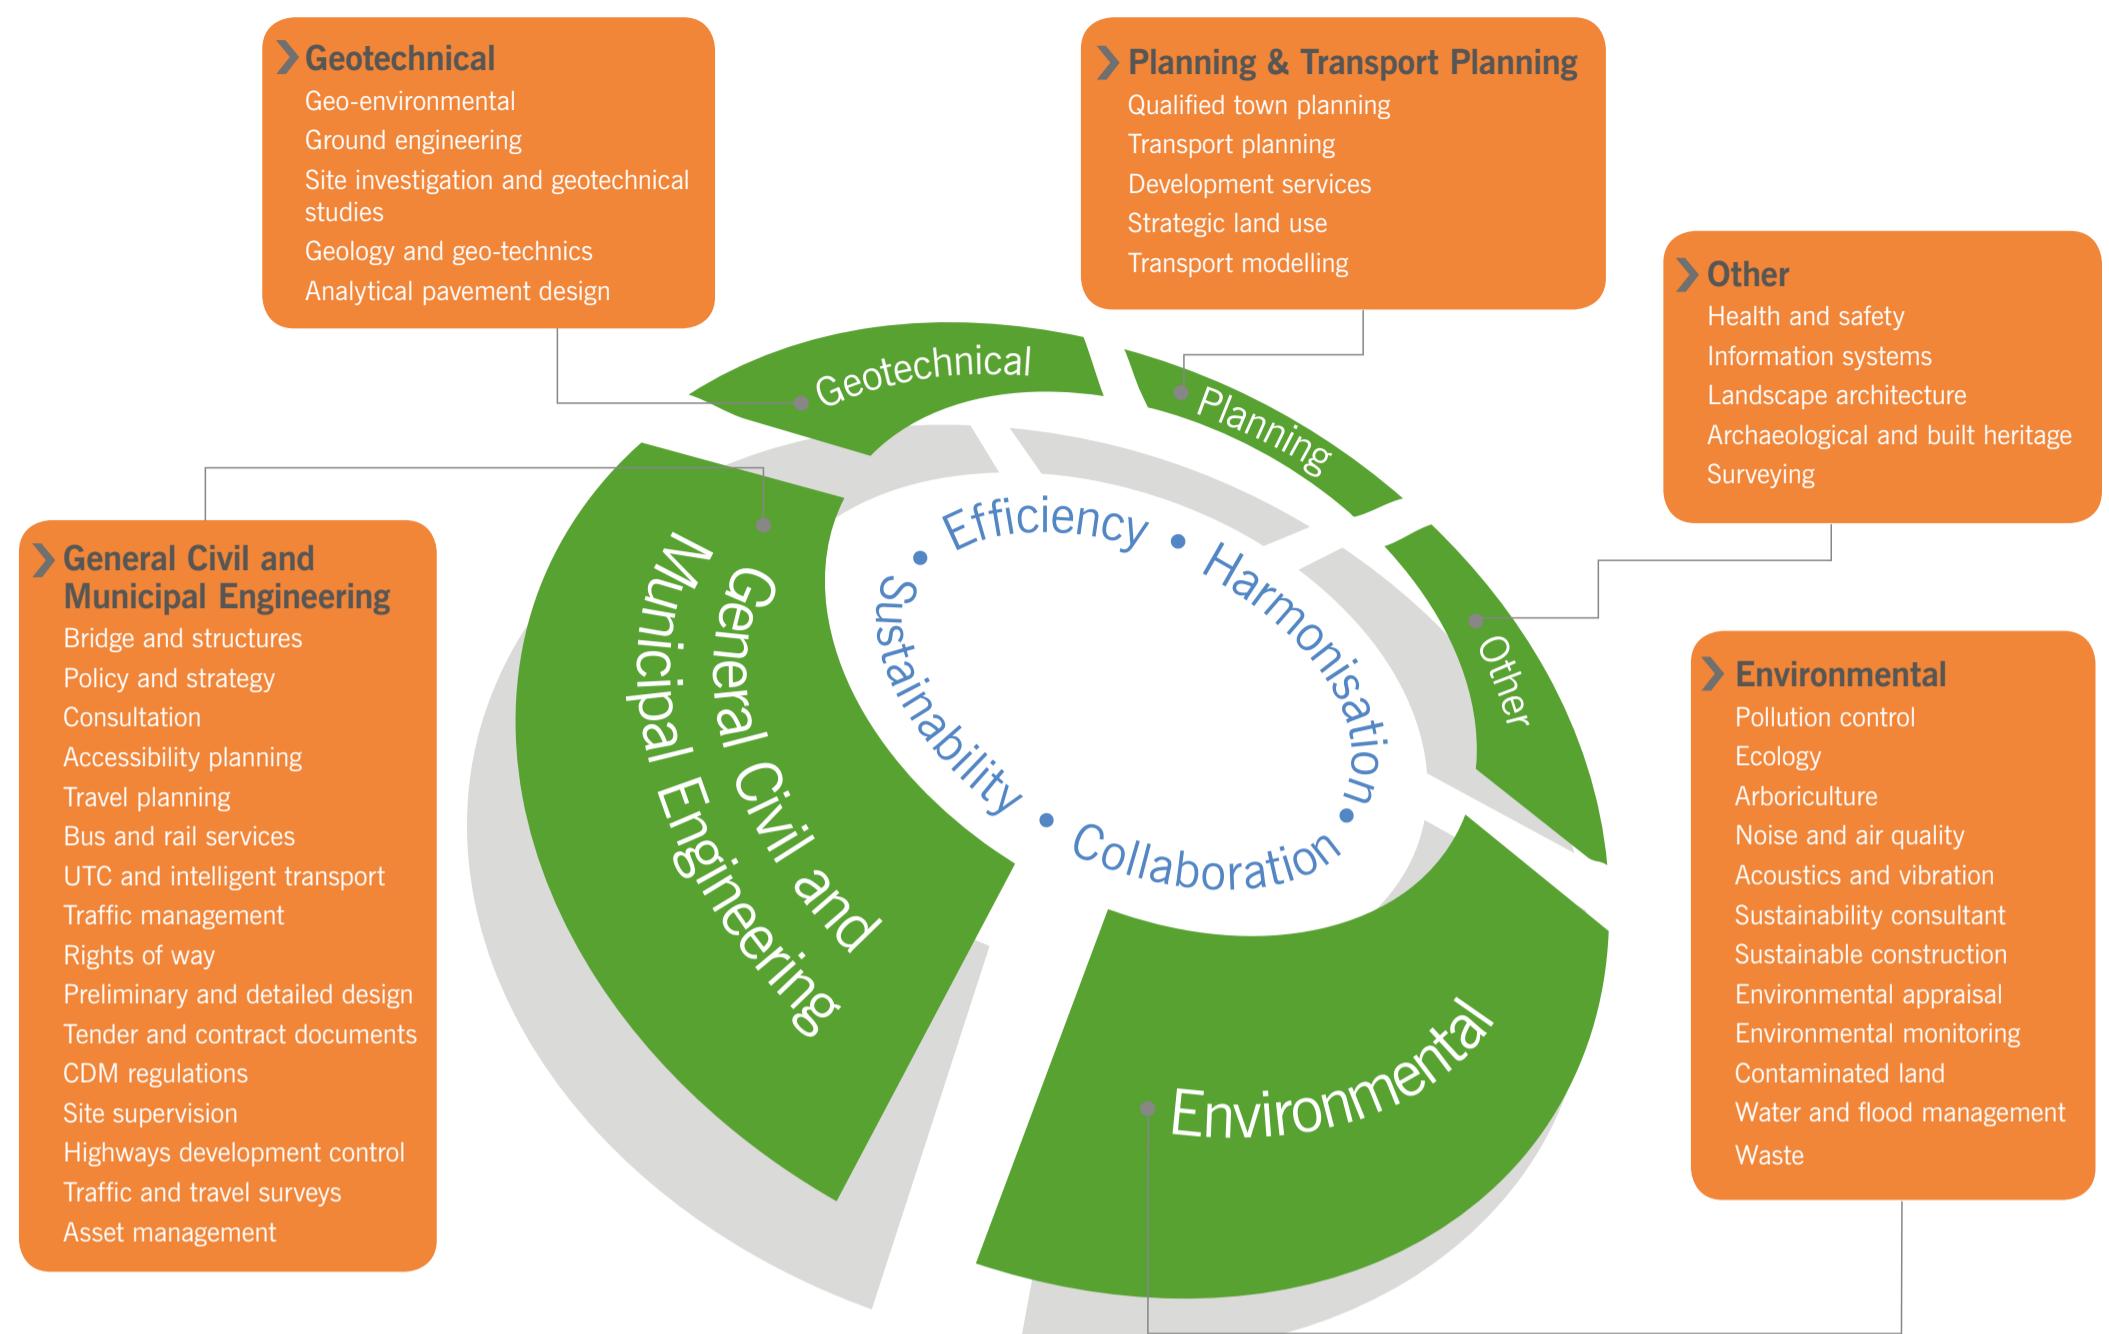

How to procure AECOM/Waterman

RECOM, Waterman
Use the **Commission Manual** to find out more about the standard procedures for the contract. This and details on how to raise scheme briefs are available on the secure section of the website at www.mhaweb.org.uk/member

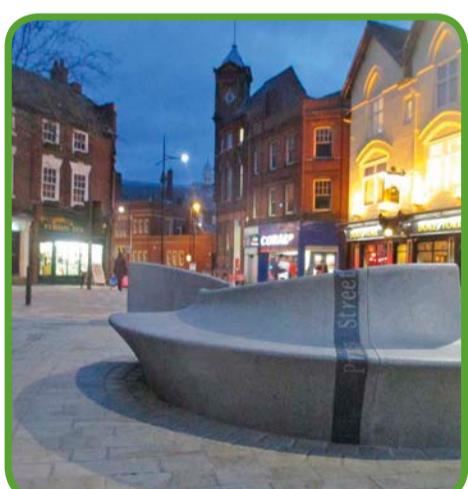

All MHA users will be given a user name and password to access the secure section of the website ('Members login area' near the 'search bar' at the top). If you do not have your login details contact the MHA by email - info@mhwweb.org.uk
